150cc Apothecary Round  
(HDPE)

Drug Plastics proudly presents an HDPE 150cc Apothecary Round to join the PET Apothecary Round family. This item addition combines the unique and classic Apothecary bottle design with the improved MVTR barrier properties of HDPE to provide a unique package suitable for pharmaceutical tablets. With an SPI-400 neck, this bottle is compatible with the full range of Drug Plastics closure offerings including continuous thread, SecuRx® Push-and-Turn CR closure, Thumble Ezy® dispensing closure, and also the Apothecary II closure to complete the classic package. **Please contact your Drug Plastics sales representative to discuss your specific needs and application.**

**Characteristics:**

- Great for Pharmaceutical Tablets and Capsules
- Classic Apothecary look for Unique Package
- **Apothecary II continuous thread closure completes classic look**
  - Closure available for 38-400 neck finish
- Also compatible with continuous thread, SecuRx® Push-and-Turn CR, and Thumble Ezy® closures
- HDPE Addition to PET family of Apothecary Rounds
